“ We discovered Banwa Island after needing a place to stay after diving in Tubbataha.

The villas were absolutely heavenly. Everything was perfect. Your team took such great care of us, anticipating our needs and helping us with everything. ”

“ It was my daughter's suggestion for this second trip, and I'm so glad that she insisted on it.

We observed more of the beauties of the island and I was once again touched by the homely and hospitable feeling that the Banwa Private Island family extended to us. ”

We have been to upscale hotels and other places, but we never felt the warm welcome that you extended to us. Everyone went above and beyond to make our stay a memorable one.

“ We loved the warmth and hospitality of the team, the exclusivity, privacy and luxury, the contemporary design, the food and outdoor dining experiences, the care of the dive master, and the most awesome of all – watching the thousands of flying foxes on their nightly departure to the mainland from a nearby island. ”

“ The water is one of the clearest that we have ever seen. That is why their marine life is protected and preserved.

We will go back soon, that's for sure! ”
